To Our Valued Patients,

We know many of you may have questions about receiving care right now. Is it safe to get dental treatment right now? What is the risk of getting COVID-19 during my dental appointments and procedures?

We feel confident saying our office is one of the safest places you could visit. Even though the majority of Utah is in the yellow phase, we aren't changing our preventative precautions in keeping you safe when you come to our office for your appointments.

What we are doing to keep you safe during an in-office appointment?

- Symptom screening and temperature checks at office entrance
- Mask requirements for all patients and caregivers
- Patient only access except for those needing additional assistance
- Online check-in for contactless experience
- Social distancing in waiting room and shared spaces
- Increased sanitization measures in every part of our office

We are prioritizing you and our team members safety. Please call us today and schedule an appointment with one of our providers so we can meet your dental needs.
